SAY MITCHELL HAS WEAKENED

Miners Believe He Is Ready to Settle the Strike on the Ten Per Cent Increase.

WILKESBARRE, Oct. 3.—The Wyoming Valley was unusually quiet today after yesterday's big demonstration on the part of the strikers, and the situation remains unchanged. The miners after reading President Mitchell's address have apparently come to the conclusion that he is ready to settle the strike on a basis of a 10 per cent increase in wages. The fact that he has signified his intention of calling a convention is taken by them as an indication that he is willing to retire from the struggle with the laurels he has won.

"The truth is," said an operator today, "Mitchell did not expect to gain anything when he ordered the strike. The fact that he went to New York personally to interview the presidents of the coal carrying roads was convincing proof that he knew the opposition that would be encountered and that the chances were against his winning. He has got more concessions now than he ever expected, and he will let it go at that. It is true he wants a full representation of the unions at the convention, but Mitchell will dominate it, as just at present he seems to be the idol of the anthracite men."

The strikers in this section say they will pay no attention to the notices posted at the collieries granting an increase of wages until the United Mine Workers' Convention takes action.

The Hillside Coal Company today posted notices of a 10 per cent increase.

PHILADELPHIA, Oct. 3.—General Superintendent Luthier reported to President Harris of the Philadelphia and Reading Coal and Iron Company today that only four of the company's thirty-nine collieries are working today. This is one less than was in operation yesterday. The only Reading Company colliery at work are North Franklin, Lincoln, Glendower and a part of Brookside.

POTTSVILLE, Pa., Oct. 3.—All the news from the Schuylkill district indicates that both sides have settled down to a long struggle. The miners have absolutely refused to be drawn into a settlement by the offer of 10 per cent increase in wages.

"Recognition of the Mine Workers' Union" is their watchword at all meetings. The upper districts have been securely tied up by the strikers since the beginning of the strike. This battle has been waged in the Schuylkill territory with the result that the collieries have capitulated one after another and it looks as if all would surrender to the strikers within the next few days. The offer of the Reading Company of an advance of 10 per cent in wages has not induced one of its 27,000 idle employees to return to work. The operators had expected a stampede among the men to get back.

As a result of large meetings of mine workers held at Tremont last night, those employed at Good Spring and Woodside remained away today and both operations are shut down. Both the Philadelphia and Reading operations, the Lincoln colliery, another of the Philadelphia and Reading possessions, located south of Brookside, is working with 900 employees and is the only one of the company's collieries in the lower district at work.

Today a crowd of strikers headed by a brass band marched to Valley View and Higgins to organize branches of the U. M. W. These towns are located in one of the richest agricultural districts in the county, and most of their residents are employed at Good Spring and Brookside.

The situation in the Panther Creek Valley is viewed with great interest, the strikers asserting that if their fellow workmen in this district would obey President Mitchell's instructions, a strike would end inside the week. While they continue to work and supply coal to the market, no matter how small an amount, it will give the operators an opportunity to refuse to grant the demands of the men.

HAZELTON, Oct. 3.—There is no material change in the situation. The mine operators have completely ignored the notices that have been posted announcing an increase in wages and a reduction in the price of powder.

An unsuccessful attempt was made at about 2 o'clock this morning to blow up with dynamite the house occupied by Michael Zulick, a mine worker in the eastern part of the city. Zulick has been working since the strike went into effect.

As yet there has been no movement on the part of the individual mine owners, who are still holding out against the big coal mining and coal carrying companies to post notices of an advance in wages. A mining superintendent, speaking today for an individual operator, said he did not think that any notices of increase would be posted at his mines, no matter what the big companies did, unless the railroads made some concessions as to tonnage rates.

Two marches took place this morning, one from Millsville, near here, and the other from Crystal Ridge. The Millsville marchers, too strong, went to Lattimer, but not being allowed to reach the company property they could not stop work. Cranberry was the objective of the Crystal Ridge men. They numbered only twenty-five and did not succeed in inducing men to refrain from going into the Pardee mines.

President Mitchell and the officials of the Mine Workers' organization returned to headquarters this morning. The action of the local union at Shen-

andoah in electing delegates to the joint convention which the strike leaders say will be called before the strike can be terminated was not dictated by the officials at headquarters, they say. President Mitchell said that the local union did it probably through a misunderstanding or for the purpose of being prepared in case a convention is suddenly called.

READING, Pa., Oct. 3.—Coal shipments on the Reading road have nearly ceased. There being no more coal to haul, navigation has stopped on the Schuylkill Canal.

The coal business as far as the anthracite is concerned is practically at a complete standstill. This will affect a very large number of railroad men along the line. The Reading Company is keeping up its rush of cars into the West Virginia salt coal regions, via Harrisburg and Shippensburg. About 500 cars were sent the past twenty-four hours, and the movement will be continued until further notice. It is stated that a number of firms in Eastern Pennsylvania are short of bituminous coal and that they are having trouble in getting it at the present time.

SHENANDOAH, Pa., Oct. 3.—The following notices were posted here and throughout the region this afternoon: The Philadelphia and Reading Coal and Iron Company, Pottsville, Pa., Oct. 3.—"This company makes the following announcement to its mine employees: 'It will adjust its rate of wages so as to pay its mine employees on and after October 1, 1900, a net increase of 10 per cent in wages heretofore received, and will take up with its mine employees any grievances which they may have.'"

"R. G. LUTHER, General Superintendent."

"Fellow Workmen: Pay no attention whatever to these notices. Wait till you hear from the Convention."

"C. S. POTTIER, Mr. Pottier is a local organizer and leader. He stated that special meetings of the Shenandoah unions would be held tonight to discuss the Reading Company's notice."

The Reading Company's new offer differs from the one posted Monday in that it definitely makes the offer of a 10 per cent advance in wages and agrees specifically to arbitration.

General Gobin has been informed that a big meeting of mine workers is scheduled for tomorrow night at Lansford, Pa., in the Panther Creek Valley. It is understood that a large number of strikers of the vicinity of Hazleton will attend.

General Gobin said today that if troops are needed they will be in readiness. Reports from Panther Creek Valley today are to the effect that the Lehigh Coal and Navigation Company's collieries are still working with full forces, despite the great pressure brought to bear on the men there by strikers from other districts.

General Gobin said today that he hopes to send all but 800 of his troops home tomorrow.

Joseph Farquhar, Provost Marshal, stated that the foreigners in the vicinity of Indian Ridge colliery and the eastern end of Shenandoah are displaying an unusually ugly disposition. He has ordered the provost guard to make frequent trips through that section.

SHAMOKIN, Pa., Oct. 3.—Following the example of the owners of Mid-valley colliery in shutting down until the strike is over, the Shamokin Coal Company's Natalie colliery was closed today. The Franklin colliery at Trevorton is the only Reading Company colliery operating in the north Schuylkill region.

SCANTON, Pa., Oct. 3.—There are no indications that there may be a response to the notices posted by the Delaware, Lackawanna and Western, the Lehigh Valley, the Hillside Coal and Iron Company and the Temple Coal and Iron Company, asking their miners to return to work on the proposed wage increase of 10 per cent and powder reduction to contract miners with an adjustment of mine wages based thereon. The strikers everywhere positively decline to take any action which is not authorized by President Mitchell.

Loomis of the Lackawanna is confident that enough of his workmen will be on hand tomorrow to warrant the operation of a couple of the mines at least.

The union officers say that he will be disappointed as he was a week ago, when every effort was made to start a single mine.

James J. Williams, who operates collieries which ship coal over the Ontario and Western Railway, said today that all the individual operators were provoked at the manner in which the big companies are acting.

YOUTSEY CASE IS POSTPONED.

Associated Press Dispatches by The Tribune's Special Leased Wire
GEORGETOWN, Ky., Oct. 3.—When the Yountsey case was called today in the Circuit Court, Attorney Nelson said that the defendant could not make any announcement until the summons for witnesses which were sent to the Sheriff of Breathitt and Knox counties had been returned. The Court granted until Friday morning to hear from the Sheriff.

BURGHERS ARE STILL DANGEROUS

They Attack British Convoy and Wipe Out Escort.

Derail a Train and Kill Five Coldstream Guards.

LONDON, Oct. 3.—The following dispatch has been received from Lord Roberts:

"PRETORIA, Tuesday, Oct. 2.—A convoy of twenty-two wagons escorted by sixty mounted men was attacked by 120 Boers, October 1st, near DeJagob Drift, while on the way to Vryheid. Twelve of the men escaped. The fate of the others is not known."

"The Boers derailed a train near Pan yesterday evening. Five Coldstream Guards were killed and nineteen injured."

"Commandant Dicksen, who has been opposing Paget, has surrendered after a personal visit to Komatipoort to assure himself that Kruger had gone into Portuguese territory."

ELECTIONS IN GREAT BRITAIN.

Associated Press Dispatches by The Tribune's Special Leased Wire
LONDON, Oct. 3.—Up to 3 o'clock the total number of members of Parliament elected is 265, divided as follows: Conservatives, 167; Unionists, 29; Liberals, 39; Nationalists, 27.

Today's unopposed returns include William Wither Bransstone Beach (Conservative, Andover Division of Hampshire), known as the Father of the House of Commons. He has represented Andover since 1857.

Also among those elected without opposition today are Joseph Austen Chamberlain, eldest son of Joseph Chamberlain (East Division of Worcestershire), Liberal-Unionist, and John Dillon, the former chairman of the Irish Parliamentary party (East Mayo).

The result of the election in the Merthyr Tydvil District of Wales (two members) was as follows: David A. Thomas, Liberal, 8,598; James K. Hardie, Labor, 8,545; William Pritchard Morgan, Liberal, 4,004.

The Labor party thus gains a seat from the Liberals by the defeat of Mr. Morgan. The latter is well known in the United States in connection with mining affairs in China and elsewhere.

SUGAR PRICES BEING SLASHED.

Associated Press Dispatches by The Tribune's Special Leased Wire
NEW YORK, Oct. 3.—The sugar market is demoralized. The American Company has reduced its prices for refined fifteen points. Arbuckle Bros. have reduced their list prices twenty points for fine granulated. This is five points under the American and other refiners, and it is rumored that other independent refiners are making reductions of twenty-five points.

Arbuckle Bros. have cut the price of refined sugar to 5.75 and withdrawn all guarantees. The independent refiners have also cut the price to 5.75.

This leaves the price of the American Company 5 points below that of other companies.

DISASTROUS FIRE IN WILLIAMSPORT.

Associated Press Dispatches by The Tribune's Special Leased Wire
WILLIAMSPORT, Pa., Oct. 3.—This city experienced the most disastrous fire in its history early today. The big four-story shoe factory of Dayton & Co., occupying almost an entire square, with its great stock, was entirely destroyed. Other occupants of the building who suffered total losses were the Royal Braid Company and Whitman & Co., bookbinders. The loss is \$300,000, of which \$250,000 falls on Dayton & Co. The property was only partially covered by insurance. Several firemen were injured by the falling of a portion of the building.

RICH FINDS IN PORCUPINE.

Associated Press Dispatches by The Tribune's Special Leased Wire
VICTORIA, B. C., Oct. 3.—Provincial Mineralogist Rogers, who returned today from Porcupine, reports rich finds of gold in that district and predicts a big rush there. Already there are a number of men in that district. Fifty-five claims were staked on Bear and Clear creeks in one day. Good reports also come from the headwaters of Stewart River, where 25 cents a pan is being taken out.

DEMOCRATIC CLUBS ARE IN CONVENTION.

J. Ham Lewis Eggs on Party War Dogs in Fervid Speech.

Says the Constitution Has Been Pawned to Money Barons.

INDIANAPOLIS, Oct. 3.—The Quadriennial Convention of the National Association of Democratic Clubs was called to order in Tomlinson Hall by Senator James K. Jones, who presided in the absence of President W. R. Hearst. Mr. Hearst was expected to arrive this afternoon, but telegraphed that he would not be here until tomorrow.

The hall was profusely decorated with flags and bunting and portraits of the two national Democratic candidates and other distinguished members of the party were prominently displayed.

The morning trains greatly augmented the ranks of the delegates.

Mayor Taggart made an address of welcome in behalf of the State.

Hon. James K. Jones was next introduced and spoke briefly.

Mayor Samuel L. Jones of Toledo was the third speaker and held the audience closely for ten minutes. He was followed by James Hamilton Lewis of the State of Washington, who said in part:

"There are no patriots if Democrats be not. No servile supplicants for official favors are we. No dictator sways his detestable rule over us. No corporate interest commands a domination or wealth directs. We know no masters but the people. We worship no king but God."

Referring to Senator Hanna, he said: "No bloated Gorgon, swollen with party dictatorship, sits in sacred place, blinking his splendid eyes as signals for our every movement. Our ideas are our property. Our manhood is our honor. All the people are our children and the free Nation our sacred care. We abandon these to no man, and we defy the insolence of masters or the arrogance of office to take our independence from us."

With reference to President McKinley he said: "Nor have we put forth candidates for high offices the chief of whom never advocated a policy which he would not immediately denounce for party advantage nor denounce a principle which he would not espouse for the enrichment of office."

"A silver man when a silver lining was necessary to his cloud of political advancement, a gold man for the promise of political nomination. The tobacco trust had smoked his convictions out and the sugar trust had sweetened his sense of duty abandoned by promise of liberal campaign contributions. In the hour of humanity forcible annexation was criminal aggression, when not popular with the party, now criminally aggressive for forcible annexation when profitable to favored syndicates. A gentleman who in the commercial sense greets the party's ever changing policies by becoming its accommodating endorser."

Mr. Lewis alluded to Governor Roosevelt and said: "We shall never be driven to the desperate end of bolstering the decaying strength of a falling chieftain by pandering to the fantastic element whose hollow huzzas for what they neither understand nor can be the only hope of impostors in the hour when neither reason nor justice dare be appealed to to sustain them."

"Democrats, this is the hour when we extend open doors and outstretched hands to all who love their country better than self, who hope for freedom rather than power. In a nation dedicated to the ways of peace the tramp of marching armies is to echo through every by-way. The constitution so long our palladium of liberty, is now mocked at by new raised tyrants and pledged as an asset to the money barons of the world. For the hope of more millionaires and the multiplication of dollars, war is to be our occupation."

"In this perilous hour who shall answer? Upon whose head rests the colossal crime of time? On whose hands the blood of the century? Not Democracy's. To the hoary accuser of after years our spirits can answer to every charge: 'Thou canst not say I did it. We came to save, not to destroy; we came bringing peace, not the sword.'"

Governor McMillan of Tennessee was to have been the concluding speaker, but owing to temporary indisposition was compelled to forego his address.

The convention then took a recess until evening. Tonight there will be a parade of all visiting Democratic clubs and delegates, after which addresser will be made in Tomlinson Hall by James R. Sovereign, ex-Grand Master Workman of the Knights of Labor; Captain Patrick O'Farrell of Washington, D. C., and Hon. Sigmund Zeisler of Idaho.

BOREAS AND OLD JUPITER PLUVIUS ALLIED

First Storm of Season Felt on Street and Bay.

Steamers and Trains Put Out of Time and Place.

Nearly half an inch of rain has fallen this season to date, as to be exact, for the same period last year there was no rainfall whatever.

The fall for the first storm, about three weeks or a month ago, was only .07, but last night there was not only a "fall" but a precipitation that in a few minutes had streets and gutters awash and thoroughly tested roofs that have been dry in the sun for months. The fall was not of long duration, but over one-third of an inch, .34, was spread over the ground while it did last.

All trains were running late last night. It was equally on the bay and the boats ran under slow bells. The extreme high tide at 4:45 yesterday evening, as the local on the narrow gauge stopped at Point station a defective engine head was blown out of the engine. The train was held out for thirty minutes while another engine was brought from the round house.

the telephone last night and told her the son John, brakeman on the "Peanut train" which runs between this city and San Jose, had been injured by the train at the latter place, a leg and an arm having been severed from the trunk and that the unfortunate man was at the Receiving Hospital.

Mrs. Kelleher is a widow. Her husband for twenty years had been in the employ of the Railroad Company, where he met with an accident in which he lost an arm and a leg.

The announcement that her son Joe had suffered in the same way nearly prostrated the poor mother.

BAKEHEAD IN THE STREET.

She ran into the street without waiting for shoes or hat and reached the Receiving Hospital only to discover that nothing was known of the accident there.

The next three hours were passed in anxiety and impatience for the arrival of the San Jose train, which did not arrive at First and Broadway until midnight.

When it arrived it was met by a crowd of neighbors and friends of the grief-stricken woman. It was then discovered that the story was a cowardly canard invented to cause pain to the mother of young Kelleher. The young man was on the train as well as ever, and when he was brought to his mother the poor woman could not control her tears.

NO TRACE OF THE SENDER.

Thus far the telephone people have not located the sender of the message. Thomas Kelleher, a brother of Joseph, who was at home when the message was received and who answered the call stating that the bell was ringing fifteen or twenty times before he responded to it.

The friends of Mrs. Kelleher who are employed in the yards will offer a reward for the discovery of the man who sent the message.

The Brand Case.

Henry H. Brown, the Berkeley music teacher who married the furniture store owner of three different firms and became defendant on a charge of bigamy for his thirteenth, was arraigned today before Judge Thayer and entered a plea of not guilty. His attorney asked the privilege of withdrawing the indictment previously to trial in order to appeal the case.

The fixing of the date of trial went over to November 15th to give the defendant ample opportunity to make up his mind what he wished to do in the matter.

Miller to Go to Jail.

William D. Miller, the hop-cker charged with murder, presented a picture of death and hopelessness when he was called before Judge Green in a morning for arraignment. He did not appear as pictured when he fled from the Pleasanton hospital after taking the life of George McFarland.

The trial was finally set for October 20th. One week has been reserved for the hearing.

Coming Trials.

The trial of James Snyder, charged with grand larceny, has been set for October 20th. Snyder is accused of having stolen a home and business at Pleasanton. He was arraigned today and pleaded guilty. D. M. Connor of Pleasanton is his attorney.

John Hickenberry, who is alleged to have committed by Gary at the point of view of Al Wood & Bro., will be tried December 15th.

Fire Protection Wanted By Residents on Briggs Avenue.

BERKELEY, October 2.—Fire at an early hour this morning destroyed the building of the Catholic church here, the first of the series of fires which have been occurring in the city since the fire at the school of the Sisters of the Holy Family.

The students of the school, all of their effects, were saved, and the school was closed for the day.

The fire department responded promptly, but was hampered by the fact that the fire was in the rear of the building, and the fire department had to enter the building by the front door.

IN THE FIELD OF SPORT.

Extraordinary bags even for the first day's shooting were secured Monday, the opening of the duck season. In one instance the sport was really deplorable. One party of four secured 600 ducks in two hours of shooting on the Alvarado marshes. Three other members of the Spanish Club killed 200 in the same locality.

Members of the Alameda Sportsmen's Club and Empire Gun Club returned from the Spanish marshes with a large bag of mallards, principally shot and bagged by the Spanish Club.

There was a wonderful flight of ducks back of Bay Farm Island and along the marshes to Alameda. Over 100 were seen in that direction, and the majority were reported with the highest bags of their shooting career.

WEDNESDAY.....OCTOBER 3, 1909

Every time Roosevelt hits the ice trust boss Croker emits a howl of rage.

There seems to be something besides truth at the bottom of the Roosevelt well—there is earth instead of water.

A prospector claims to have discovered a large bed of smokeless coal in Northern Idaho. Probably it won't burn at all.

It is a queer and of objection to bossism that parades "Dick" Croker as the guide, philosopher and friend of young men entering politics.

Some of our Republican contemporaries are speculating on what would happen if Bryan is elected. What is the use of speculating about what will never occur?

Prince Tuan is evidently to be made a political martyr in China. The Dowager Empress gave him all the rope he wanted when the Boxer movement was in the ascendency, but it got twisted around his neck and he will be in mighty big luck if the powers don't take a pull on it.

Croker attempts to justify his holdings in the ice trust by saying that it was merely a stock investment and, to use his own language, "I am in the habit of playing such games once in awhile." This time, though, it was a game of free-out in which he didn't play his cards any too well, for he deprived his Democratic friends of their long suit—the trust—as far as New York is concerned.

Full credit must be given to the Republican State Central Committee for the vigorous manner in which it has opened up the campaign. Instead of taking it for granted that the State will go Republican, the committee is making as hard a fight as it is in the short end of the proposition, and with this handicap added to the others by which they are confronted, the Democrats appear to be more strictly out of it than ever.

There may be over-confidence in the Republican ranks, but there is corresponding dependency in the Democratic camps judging by the arrangements for the national convention of Democratic Clubs at Indianapolis. It is proving almost an impossible task to get delegates enough to make a showing, so when there is not even enough material in sight for officers, the prospect as to rank and file must be exceedingly slim.

OAKLAND'S FINANCIAL PROBLEM

It is discouraging, to say the least, to find that even before the tax levy is apportioned to the various funds the cry of shortage is going up from some of the departments. The fact that the schools will, according to the statements of Superintendent McElmonds, be so seriously crippled on the proposed short rations as to necessitate their closing for several weeks is in itself enough evidence that something is radically wrong with our present municipal system, and when that much is made manifest, we should lose no time in seeking to rectify our errors of government.

It being apparent that our annual civic income is too small to meet our actual needs, the consideration of how to enlarge it brings to the surface two prime factors that command the situation—either the tax levy must be increased or the basis of collections, in other words the assessment, raised. Politicians fear to advocate either of these methods lest they thereby incur the public wrath, but they should not hesitate on that score, for the residents of Oakland are in the main intelligent, and when the situation is explained to them they will commend rather than condemn the change.

A subject for serious consideration is as to whether we should continue the system whereby the city assessment rolls are merely an appendage of the county lists. As the law is interpreted now, it is compulsory for us to accept the figures of the County Assessor as to civic valuations and it does not look like a business proposition that a municipal corporation that is dependent upon its own resources for its income should have those resources estimated and peremptorily valued by an outsider. The proper way to run a business is to run every part of it, and until our laws are such that we have absolute control of our own affairs in such essential matters we must be always operating on more or less of a false basis.

Unfortunately the charter amendments that are to be submitted to the people at the forthcoming election do not provide a way out of these difficulties. That is all the more reason why we should set to work on lines that will ultimately accomplish the reform, and at present there seems to be no better method than to make up our minds that we will frame a new charter within the next two years and have it ratified at the legislative session of 1903. It is a long way to look ahead, but the task is important and demands that every inch of ground be carefully examined, so it is none too soon to set the preliminary wheels in motion.

RACE POLITICS IN HAWAII.

An unpleasant manifestation is being made in Hawaiian politics. The whites aligned themselves on the political lines drawn in this country, supposing, of course, that the natives would also attach themselves to the respective national parties according to their sympathies and convictions. Unfortunately this has not been the case. A native party has been organized by Robert Wilcox, the half-breed agitator who has previously troubled the peace of the islands by inciting demonstrations against the whites. The race and color line has been drawn and there is danger that the movement may be successful at the coming election.

This would be a setback to the prosperity of Hawaii. The natives have demonstrated their incapacity to rule in accordance with the conditions and requirements of civilized society. This fact is so well recognized that the educated and property-owning element of the native Hawaiians are opposed to a return of anything like native government. But this element is not numerous, and their association in business and politics with the whites has largely destroyed their influence with their ignorant and confiding compatriots, who, by their peculiar temperament, are the easy dupes of designing agitators of their own race.

The idea of restoring political dominion to the native Hawaiians is, of course, a threat against business security in the islands. It is based on a boycott of the whites, in whose hands are the commercial interests of Hawaii, and who alone are bringing about development. Naturally the whites are somewhat disturbed over the outlook. An issue is being forced upon them that they hoped would not be raised and which they are forced to meet with decision and a united purpose. The welfare of the islands, as well as the interests of civilization, impel them to resist the scheme to restore native government with dangerous and untrustworthy leaders at its head. The color line in itself is bad, but when it is drawn by the ignorant, propertyless and vicious against the educated, property-owning class, it is a serious menace to the peace and order of the islands. The lawless and mercenary character of the native leaders adds to the sinister aspect of the situation.

Latest advances indicate that the native movement has already aroused a sentiment in favor of fusing all the other elements in opposition. If it becomes too menacing this will doubtless be the outcome. Ordinary party feeling must give way to the exigencies of a crisis so grave.

CROKER SEEKING SUPREME POWER.

The burly figure of "Dick" Croker casts a sinister shadow over Bryan's campaign. As William H. Miller points out in his TRIBUNE interview, this is the first time in our history that a Presidential candidate is wholly dependent on a boss for hope of election. It is a fact of the gravest importance and one that demands thoughtful consideration. It is a phase of the contest that cannot be ignored. There is a present significance in it that must be heeded.

Shall the kind of rule, the character of service, the standard of fitness that Tammany has given New York City be extended to Washington and the government of the Nation? Shall Richard Croker be as potent in the National Capital as he is on Manhattan Island? Are the American people ready to accept the sway of the boss over the Republic? If so, Croker only needs the title of Emperor to make him rank with the Roman Caesars. With the White House as an adjunct to Tammany Hall we should have politics indeed—politics of a type that made emperors the creatures of a debauched and mercenary soldiery, with the difference that the "gang" in the great cities would take the place of the Pretorian Guard.

Bryan can only win by favor of Croker, and Croker says he is "working for his pocket all the time." In working to elect Bryan, Croker is working for his pocket and for the increase of his already vast power. Virtually he is King of New York. The President elects no such arbitrary power as he exercises. The Queen of England is a mere cipher to him when it comes to exerting real authority. He rules with a rod of iron, and the character of the rule is set forth in the testimony taken by the Lexow Commission. It is a rule built up by the spoils of politics and the blackmail of the inmates of a great city. Incidentally all corporations depending in any way on the public favor are leveled on. It is a system of government as extraneous and unjust as it is mercenary and ineffectual. It prostitutes the ballot and the public service. It destroys the essence of popular government while pretending to follow its forms.

Do the people want this in the White House?

A VERY UNWISE SUGGESTION.

The proposition of some of the operators to replace the striking miners in Pennsylvania with negro miners from Alabama, Tennessee and Virginia is not a wise one. It would inevitably introduce race antagonism into an already complicated question. It would provoke disturbances far more serious than any which have heretofore arisen in the course of the struggle.

Human nature is pretty much the same everywhere, and the ordinary man can judge of the feelings of the striking miners and the communities in which they are a part in respect to this matter by mentally applying the conditions to himself. In Illinois a similar attempt resulted in bloody riots and a long reign of martial law in the disturbed district. The Governor of the State by an arbitrary exercise of authority refused to permit the importation of colored miners from other States on the ground that the proceeding threatened the peace and order of the commonwealth. This was a violation of the law, but the Governor resolutely maintained that the first duty of the Chief Executive was the maintenance of peace and order. He promised the mine owners all the protection that his powers afforded, but he declined to permit the situation to be made more inflammable by the introduction of a foreign element from outside the State which made the situation more difficult to handle.

While the striking miners have certain moral claims in the matter, there are other considerations that should not be ignored. The importation of colored miners from outside to take the place of strikers cannot fail to add to the race antagonism that has so often manifested itself throughout the country. The negro race will be the sufferer, and a just regard for the colored people should deter capitalists from throwing them into a breach that is fraught with danger. When the negro has served his turn he will go to the wall; the white miner will come to his own again, but with a deep-seated grudge against the ignorant black instrument which the mine owner used to club him into submission. Matters are bad enough as they are, but the introduction of negro miners will make them infinitely worse—for the community at large and for both the white and black miners.

St. Joseph, Missouri, is about the only city in the Union that did not make great claims of its increase in population. It modestly estimated that the city contained 77,000 inhabitants. The census showed that it contained over 102,000. A recount was ordered and the first enumeration affirmed. Yet St. Joseph has fired no cannon and built no bonfires. It never did have any use for Kansas City and Kansas City ways, but it is a fine old town for all that and shows that it can keep up with the procession without bluster or brag.

Henry E. Highton, the well-known San Francisco lawyer, and District Attorney Dosier of Shasta are the two latest Democrats to come out for McKinley. They will take the stump during the campaign. And so they come all over the Union. The call of patriotism is louder than the call of party.

SETTLEMENT IS IN SIGHT FOR CHINA.

Optimistic View Taken By Washington Officials.

WASHINGTON, Oct. 3.—A feeling of buoyant optimism prevails among officials today here relative to the Chinese troubles that warrants the belief in the existence of a sound foundation based on the recent developments in the pending negotiations. It is evident that the conviction among officials that a rapprochement among the powers is near at hand.

The encouraging outlook has been brought about largely by the harmonious sentiments which have developed between this Government and Germany concerning the course of future events in China. Since the return of Secretary Hay he has had several conferences with Baron von Schulerberg, the German Charge d'Affaires, which have been of such a character as to show the two governments are proceeding toward a common end for the solution of the Chinese problem.

The Berlin government received several days ago the Shing-chi-chang, the Chinese chief ordering punishment of Prince Tuan and his associates. This was accepted as a sincere evidence that China was disposed now to deal with the responsible parties in their offenses deserved, making a peaceful solution of the problem possible. Moreover, the outlook is more satisfactory than at any time heretofore, not only for concurrent action by the powers, but also for a comprehensive settlement of the entire Chinese question.

It is expected, however, that the attention of this Government will be turned within the next few days to some entirely new phases brought up by the French note to the powers. There is a doubt as to the accuracy of the foreign dispatches stating that M. Del Casse, the French Minister of Foreign Affairs, has addressed a note to the powers proposing a general plan of dealing with the subject. This note undoubtedly will be in the hands of this Government by the time the President returns, and already there is considerable anxiety in foreign quarters as to the answer the United States will make.

There is reason to believe that some of the continental powers do not view all of the French proposals with favor, and that there may be a renewal in this note of the differences which were developed by the German note. So far as this Government is concerned, however, there is no reason to believe the French note will meet with disfavor.

The plans are under consideration by which the powers will deal with the guilty parties. It is felt to be proper that the punishment should be carried out in such a public manner, either with the knowledge of the foreign Ministers or in their presence, that there can be no question as to the completeness of China's reparation.

A Little One Dead.

CENSUS OF OAKLAND

Oakland makes an excellent showing in the census bulletin just issued, which shows that the city has a population of 10,000, an increase of 10,000, or 25 per cent, a much larger gain than is shown by any other city in the United States.

The following article, which appeared as a leading article in the San Francisco Chronicle, was then read by Secretary Walker:

"Oakland makes an excellent showing in the census bulletin just issued, which shows that the city has a population of 10,000, an increase of 10,000, or 25 per cent, a much larger gain than is shown by any other city in the United States."

ADVANTAGES OF CONSOLIDATION.

The combined population of Berkeley and Alameda is very close to 20,000, and that of Berkeley and the cities and towns of Alameda county, not including within its municipality, at least 100,000. The growth of that section, which includes Berkeley, Alameda, and the cities and towns of Alameda county, has been very rapid. Including San Leandro, which lies just over the township line, there must be a population of 100,000 in this territory. This gives the population of greater Oakland at about 120,000. Consolidation achieved instead of what would have proved a greater advantage than Oakland has ever received. It would have placed among the leading American municipalities.

Mr. Walker stated that his object in calling attention to this article was to show that in consolidation there is a remedy for meeting the increased expenses of running Oakland; second, an independent city was now being made to raise the assessment of Oakland.

WOULD JOIN SAN FRANCISCO.

J. F. W. Sobot was then called upon to give his ideas on consolidation. He not only favored the consolidation of Oakland with San Francisco, but also favored the consolidation of Greater Oakland with San Francisco, thus forming Greater San Francisco. He said, "Oakland is to be benefited by consolidation with these smaller cities, Berkeley, Alameda, and the smaller places, which will unite with San Francisco and give the combined city a population of half a million and a same time the position of influence of a city of that size would hold in the world."

Then, besides the influence which this consolidation would bring, the doing away with that jealousy which now exists between the city and the county.

FILIPINOS PIN FAITH TO BRYAN.

Think McKinley's Defeat Means Independence for Them.

Associated Press Dispatches by The Tribune's Special Leased Wire. WASHINGTON, Oct. 3.—The War Department has just received from General MacArthur by mail another batch of important papers captured by the Americans in the Philippines. Among them are letters from Theodore Roosevelt and J. R. Rogers, agents for the Philippine Junta at Hongkong.

In a letter addressed by Sandico to Lieutenant Colonel Casimiro Tinto, the latter says in part:

"The present campaign and some other circumstances have created in America a political situation that may perhaps produce the defeat of McKinley, which will signify the triumph of our ideals. For the same reason the discontents were in the Transvaal, and more especially the three revolutions in China, have created a political atmosphere sufficiently critical to cause the birth of a disturbance of the armed peace of the great powers that may result favorably to our aspirations; because America may prefer to sacrifice some of her plans with respect to the Philippine Islands, accepting our independence under protection, rather than sustain two wars and run the risk of losing the whole archipelago. I believe, then, under the conditions so favorably altered by the present circumstances, it is necessary that we continue the struggle and only accept peace on a basis of independence, although under an American protectorate."

"If the re-election of Mr. McKinley be accomplished and the revolution in China be wiped out and the war in the Transvaal take no new complications, then I will be the first to accept the peace that I believe will be necessary, though it be at the cost of acknowledging the sovereignty of the United States, since consider that our forces are now impeded to defend our sacred and legitimate rights."

He also writes from Hongkong Junta to Sandico describing the anti-imperialist movement in Philadelphia and the Boston meeting to show that the Philippine sympathizers are increasing in number, and that the victories obtained by the American Philippine army are of great influence "on the very impressionable minds of the American people." He concludes:

"This impression is and will be one of the determined causes of our triumph, which triumph will come soon if we but resist a little more, now that Mr. McKinley is seeking to change the announced decision as with the defeat of McKinley comes the achievement of the sacred banner over our soil."

ORDERED TO SHOOT ALL FOREIGNERS.

Associated Press Dispatches by The Tribune's Special Leased Wire. BEIJING, Oct. 3.—Official orders from Peking dated September 23rd direct that a further examination of the Chinese non-commissioned officer arrested at the murder of Baron von Kettler resulted in this statement:

"On June 21st I and my people received orders from a Prince to shoot foreigners wherever we came across them."

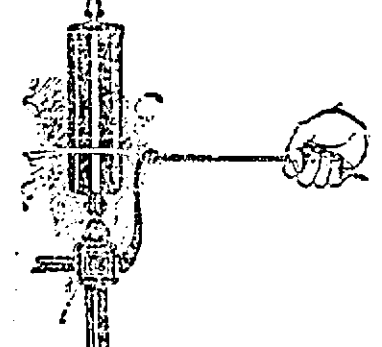

The accused, it appears, denied that the order was to shoot a Minister or the German Minister, and he declared himself unable to say which Prince gave the order.

NO EXCITEMENT OVER ELECTIONS.

Conservative Success Taken for Granted in England.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Oct. 3.—A dispatch to the Tribune from London says: The election scenes in West street and the political clubs are chiefly remarkable for lack of excitement. The second day's polling has included Battersea and Northampton, two of the most interesting boroughs contested, and has revealed the trend of opinion in Lancashire and other industrial sections, but the results have been received almost indifferently in the streets and clubs. This apathy is due to the fact that the general result of the elections is regarded as a foregone conclusion. Not even the most sanguine Liberal has expected the triumph of his party nor hoped for anything more than a reduction of the Government majority. The loyal example of the colonies in halting the battles of the empire has brought the Liberal Imperialists well to the front in the opposition side, and even a material reduction of the Government majority will not involve a reversal of the South African policy. The elections are passing quietly because the country knows that there will be no break in the continuity of the government of the empire.

A first batch of uncontested elections sent the Government well up to the figures at the close of the last Parliament, and the polling in Galfrey town revealed an unexpected Unionist gain in Ireland. The Liberal candidates in the district of Lord Morris, formerly Lord Chief Justice of Ireland, He ran against two Nationalist candidates in 1895 and was defeated, but has now come out at the head of the poll in a home rule stronghold. He is a Roman Catholic and his election is proof that the influence of the clergy has not been thrown against him.

The Tories describe this victory as the first fruits of the Queen's visit to Ireland and express the hope that it may influence the results in the elections in South Tyrone and South County Dublin, where T. W. Russell and Horace Plunkett are expected by independent Unionists.

Tories are regarded as desirous in one respect. The Liberals are seeking to win the Unionist vote in the borough elections. Their failure will be an indication that the Unionists will hold their majority and possibly increase it, which the country knows is a line of their own. The Liberals started off with gaining Grantham as an offset to Galfrey town, and followed their advantage by capturing Swansea and Gloucester; but the Unionists increased their majority in Boston, Whitehaven and other boroughs and won a seat at Stockton-on-Tees. Mr. Balfour led off in London with a barely decided majority. Mr. Balfour was defeated after a stirring fight, and the industrial districts generally went strongly Unionist.

The Cabinet makers have suspended their activity until the results of the appeal to the country are more clearly known. There is a generally accepted belief that Lord Lansdowne's accession will be a member of the Commons, where a good debater is required for the exposition of reform policies favored by Lord Roberts. This will limit the choice of a new Secretary of War to Mr. Chamberlain and Mr. Wyndham. Old Tories assert that the influence of Mr. Chamberlain has declined and that he will not be transferred to the War Office. The prospect of that influence depends upon the result of the appeal to the country. It will increase if Parliament be strongly Unionist, for he has forced the fighting and been the target of abuse. It may diminish if the Unionist majority be cut down. The most intimate friends of Mr. Chamberlain don't know whether he wishes the War Office. He enemies assert that he is an unwilling player second fiddle to Lord Roberts, for whose sever is done in the way of military reorganization will have the authority of the Commander-in-Chief Mr. Chamberlain. Mr. Wyndham and Lord Roberts are alike convinced that the military resources of the colonies which have been heavily drawn upon in South Africa, must not be lost sight of, but utilized and developed into a comprehensive scheme for the permanent defense of the empire.

SORRY HIS SHOT WAS NOT FATAL.

The Would-Be Slayer Believed to Be Insane.

Associated Press Dispatches by The Tribune's Special Leased Wire. BOSTON, Oct. 3.—The police are of the opinion that Gleason, who shot and seriously wounded Rev. L. P. McCarthy yesterday, is crazy. It appears that Gleason called at his residence and requested to see Father McCarthy. The first thing he said to the priest was: "Were you born in Ireland?"

Father McCarthy replied: "No, I was born right here in East Boston."

Immediately Gleason raised a revolver which had been concealed and fired four shots at Father McCarthy. One bullet took effect in the priest's back and another grazed his left shoulder, and he fell.

Gleason after the shooting rushed from the building. He went at once to a police station, which he entered with the revolver still in his hand. He approached the desk and said: "I am a good Catholic. I have got a gun and I am afraid I will get into trouble with it if I don't get rid of it. You'd better take it."

The wounded clergyman was picked up by his servants, who had heard the report of the shots.

Gleason's first words to Captain Dugan were: "I never felt better in my life than today. At last I have done what I should have done fourteen years ago, and what I have wanted to do all these years. I am only sorry that I did not kill Father McCarthy and I wish it was the Bishop of Portland, Oregon. I would willingly start today to walk to Portland on my head just for the satisfaction of killing the Bishop."

Fourteen years ago Gleason went to Portland, Oregon, and later used a soldier's claim in Washington Territory. He returned to Portland and was shot while he was there. He was locked in the same cell with the murdered, he claims and all because of the enmity of the Bishop of Portland for him. He claims that the Bishop had persecuted him all these years and persecuted him by the aid of Father McCarthy and other priests. He said that the Bishop had interfered in his affairs and injured him daily until the very hour of his deed.

INTERNATIONAL ATHLETIC MEETS

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Oct. 3.—As a result of the international athletic meeting at the Paris Exposition, interest in this subject has received such an impetus that the organizers are now desirous of holding annual world championships.

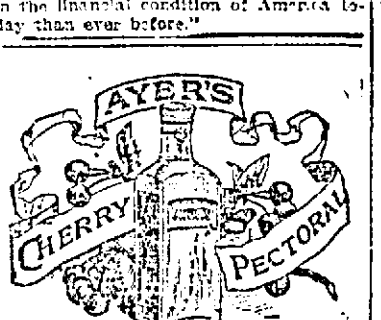

Secretary Paulsen has received a letter from S. G. Perry Roy of Paris saying a meeting has been held by the French and for him delegates to create an international federation of athletic sports.

The object of the federation is to accept common rules relative to amateurism and bring the athletic clubs of each country together by holding international congresses at certain periods and having annual world championships.

A meeting will be held in Paris in October for completing the organization of the federation, and Perry Roy desires the support of the A. A. U. and wishes to send delegates.

ENGLAND'S DEBTS NOT BURDENSOME.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Oct. 3.—Lord Revelstoke, a director of the Bank of England, before saying for home yesterday on the National Westminster Bank, said: "England's external debts for the South African war will not interfere with her financial condition. The war has been a heavy burden, but now that it is about over the debt will be paid for rapidly. England has more confidence in the financial condition of America today than ever before."

The great trouble in trying to sell what are called patent medicines is that so many claims have been made for them that people don't or won't believe what honest makers say.

We have been telling our story sixty years. Did we ever deceive you once? If we make any statement that isn't so, we will stand the loss. Go to the druggist and get your money back.

Here's an example. Ayer's Cherry Pectoral is a good cure for a cough that comes from a cold.

Your cough, if you have one, may not come from a cold; your doctor will tell you about that.

It is a straight medicine with many years of cures back of it. There isn't a ghost of the ordinary patent thing about it.

PLOT TO MURDER THE PRESIDENT.

Canton Police are on the Watch for the Conspirators.

Associated Press Dispatches by The Tribune's Special Leased Wire. CHICAGO, Oct. 3.—A special to the Record from Canton, Ohio, says: Information was made public last night that another plot had been discovered to assassinate President McKinley.

Detestives connected with the safe-guarding of the President say there are three men either here or on their way to kill the President. Extra policemen have been detailed to enforce an order issued by Mayor Robertson, ex-officio Chief of Police, which notifies all policemen to keep close watch on all strangers in the city and to be particularly to watch for two Italians, who will probably be accompanied by an old man.

Mayor Robertson in speaking about the matter said:

"The word first came to the Secret Service at Chicago. An anonymous letter was received by the United States Secret Service authorities there stating that the three men for whose apprehension we were on the lookout were expected to arrive in Canton during the day. Thus far they have not come, but we are keeping a close watch for them."

RUMOR OF A SHARKEY AND JEFFERIS FIGHT.

A telegram from New York, in this morning's paper has the following: "Jeffery Reich, manager of Tom Sharkey, has received an offer from San Francisco for a twenty-round bout between the former sailor and Jim Jeffery. Reich sent up acceptance of the fight to the challenge of Tom Sharkey on behalf of Joe Walcott, said Reich, I wish to state that Sharkey will not fight colored men. I can understand why Walcott should force Reich to fight him, for everybody knows that the colored fighter is out of Sharkey's class and can only do so by beating Jeffery. I will put a forfeit any time to arrange a fight."

San Francisco fight managers say they have made no bid for a fight between Sharkey and Jeffery. James Gibb of the National Club says that organization had been negotiating with several prominent Eastern fighters, but has not been in correspondence with either the champion of the sailor.

"I understand the big fellows are to battle six rounds in Philadelphia," said Gibb, and I know the National Club has not been trying to secure their services."

Charles Kemp, who is connected with the National Club, has not heard of any negotiations with the big fellows, and says he feels certain that none have been made.

REAL ESTATE AGENT GLASHES WITH A JUDGE.

E. A. Randlett of the Alameda real estate firm of E. D. Judd & Co., had an unpleasant interview yesterday with Judge Coffey of the San Francisco Superior Court.

The John J. Markham estate, now in process of probate, settled for \$200,000 yesterday. Randlett made an inquiry into the matter and was told that the estate was not satisfactory to the Court. Judge Coffey ordered Randlett to add \$200 to the \$200,000 purchase price given by his wife, and he gave notice that if the money were not paid "somebody will go to jail."

CHINESE PEACE COMMISSIONERS.

The German Plans for Revenge Arousing Uneasiness.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Oct. 3.—A special to the Herald from Washington says: President McKinley will return to Washington Thursday or Friday to confer with the Cabinet relative to the replies to be made to the new propositions submitted by Germany and France.

In her note Germany has suggested that the Ministers in Peking should be empowered to designate those whose punishment will be insisted upon and that the powers determine the character of the punishment.

It is unlikely that the United States will look with favor upon the plan to resolve the Ministers in Peking into a star chamber which shall indicate the persons they think responsible for the crimes even though they alone are capable of determining this person. This Government desires, however, that the punishment of the criminals be matters of negotiation. The character of punishment can very well be considered by the powers, though China, of course, will execute the sentence determined upon.

The French propositions the Administration regards as a mixture of good and evil. This Government wants the leaders of the Boxers punished and favors immediate negotiations, but it is apparently loath to assent to the suggestion that the powers prohibit the importation or manufacture of munitions of war in the colonial empire or agree to establish a permanent guard in Peking.

POWERS' PLANS NOT FAVORED.

Administration's Views as to Punishment of Boxer Leaders.

(Copyright, 1900, by the Associated Press.) PEKING, September 27 (via Tokyo, September 28, via Shanghai, Oct. 3).—President McKinley has been informed of the issuance of an imperial decree naming Liu Kun Yi, Viceroy of Nanking, and Chang Chih Tung, Viceroy at Hankow as assistant commissioners to negotiate terms of peace.

Both the resistant commissioners are members of the progressive faction.

The Italian marines are being withdrawn.

Some concern is expressed regarding the plans of the Germans, who are bringing a large force, which is expected to embark on a campaign of revenge, which it is predicted will seriously delay the establishment of peace.

X-RAY X-RAY X-RAY

The Knife and Drugs are no longer factors in the treatment of diseases. They belong to another age, and today the up-to-date practitioner who is scientifically advanced in X-RAY applications in connection with Static and Parado Electricity is a master of his art. CONSUMPTION is no longer a dread disease. The Medical Faculty of Paris, France has now fully endorsed the latest cure for tuberculosis as a specific and we have been treating lung needs of cases successfully since the early part of this year. The treatment consists of trans union of microbe-destroying drugs by means of Static Electric Currents passed through the patient's chest and lungs. (See S. F. Chronicle, page 2, Sept. 3, 1900). CANCER is now an accepted fact and acknowledged among the profession, that Cancer is positively cured and absolutely eradicated by the application of the X RAY in combination with the above treatment. A trial will convince the most sceptical. We are curing at our laboratory many cases daily.
